ABOUT

# PURPLE CRYPTO NETWORK

The Purple crypto Network project is developed to power decentralised finance [ DEFI ] . We aim to become the Number one crypto platform for financial investment and guaranteed returns.

The Purple Crypto Network is founded by Dave [ Blockchain Developer ] and Justin [ Financial Expert ] The both founder are very passionate about cryptocurrency and global monetary system.

The project objective is to develop and introduce an outstanding cross-chain Defi application that will compete with the likes of Uniswap and Pancakeswap. We are developing an all inclusive platform. And all in one application for Defi.

Our first flagship product is Purple.cx, an Investment platform powered by a secured and verified smart contract on the Binance Smart Chain. [ BSC ]. The contract is funded by the project investment and with our external crypto trading activities.

# Purple.cx **PROJECT**

Purple.cx launched on the **5th of September, 2023**. It is the first flagship product of the Purple Crypto Network. The platform enables BNB token holders to earn dividends on their staked BNB token. The initial supply of PNCX token will be distributed to investors of the Purple.cx project.

The project pays dividends between the range of **0.71% to 2.5%** daily to investors on the platform depending on their chosen plan. The smart contract is developed to ensure automated smooth and secure operations of the platform.

Investors can deposit funds anytime and also withdraw their dividends anytime and instantly. The currency for investment on the platform is BNB on the Binance Smart Chain.

## Operations

# Project Mechanism

We are big on decentralisation. We believe decentralised finance will become the bedrock of financial transactions and foster the global monetary chain network. The ecosystem keeps growing and this is the reason we chose to power Purple.cx project with the safety, reliability and security of an EVM smart contract.

A smart contract is a self-executing program that automates the actions required in an agreement or contract. Once completed, the transactions are trackable and irreversible.

Once the smart contract is deployed, changes are impossible. our smart contract is Audited and verified safe to transact. Purple.cx has no access to investors funds. All funds are stored in the blockchain and all transactions can be verified publicly.

Fees derived from the project are invested into crypto trading by our experts and profits are re-invested into the project vault. Purple.cx will be integrated into Purple Defi Yield platform [ PNCX ] which is set to launch In November 2023

## Cashing Out

# Withdraw Dividends

The smart contract makes every process automated. You can cash out your dividends anytime and instantly to your crypto wallet. The process is easy and seamless.

You invested BNB tokens, so you get paid out also in BNB tokens. **There is also an option to reinvest your dividends.** Reinvesting automatically creates a new purple plan investment for you and also reward you with a **10% bonus** for reinvesting your dividends. e.g if you reinvest 2 BNB tokens, your new investment will be 2.2 BNB tokens.

The screenshot shows the Purple CX dashboard interface. At the top, there is a navigation bar with links for Home, Dashboard, Invest, Faq, and Whitepaper, along with a 'Wrong Network' alert. Below the navigation bar, there are social media links for 'official twitter' and 'official telegram group', and a timestamp: 'Friday, September 1st 2023, 8:02:52 am'. The main display features a large digital-style number '0.00159' with a '\$' symbol to its left, labeled 'Real-Time Earnings [USD]'. Below this, there are three main sections: 'BALANCE In Wallet' showing '0.00912 BNB' with a 'DEPOSIT' button below it; 'Purples Portfolio' showing 'Total Invested 0.20 BNB' and 'Available in Vault \$0.18 USD'; and 'DIVIDEND Profit Today' showing '0.00159 BNB' with a 'RE INVEST' button below it. A large purple 'WITHDRAW' button is positioned centrally above the portfolio section.

# Affiliate Programme

## invite Friends

When you share your referral links and others signup via your link, you receive a percentage reward of their deposits. We have a 3-level tier referral commission: **5% - 2.5% - 0.5%**

The programme was designed to encourage growth of the platform. You can find your affiliate link on the dashboard screen, copy and began to spread the word.

**Note: You need to have at least one deposit to activate your affiliate programme.**

The screenshot displays the dashboard interface with two main sections: 'Affiliate' and 'Invite Friends'. At the top, there are two buttons: 'DEPOSIT' and 'RE INVEST'.
